

2014 - 2015 Junior Development Program

U8 Academy Program \$800

U9/10 Academy Program \$900

The Junior Development Program provides educational and developmental training for our players, ages 7 - 10, both boys and girls.

The Academy Program is an extension of our Junior Development Program. The Academy Program is an opportunity available to the more serious player who has demonstrated ability and accomplished fundamental skill development. Parents and players looking for a higher level of competition and commitment should consider the Academy Program.

The Academy Program offers more competitive league play (10 WYSA games for both fall and spring), additional training time, indoor training sessions, indoor league play as well as tournament play.

Academy players are continually evaluated throughout the season and will be reassessed and realigned each soccer year under the direction of the Director of Coaching.
